---

*Thieves have broken into the treasure vault of Croft Manor. An artefact to the value of 100,000 Dollars has been stolen by a well-known criminal organisation, whose headquarters lie in a small district of Rome. Immediately Lara starts off there to investigate chambers, roofs and streets for the valuable piece. During her enquiries she finds even more artefacts, but also meets some unpleasant creatures.*

Many thanks for downloading this level. This is a short level just for fun. You'll need about 30 or 45 minutes to play.

If you have finished I would be very grateful to get a short review from you. Just visit [trle.net](http://trle.net) (english) or [laraslevelbase.org](http://laraslevelbase.org) (german). You can also get help there if you get stuck.

Happy raiding!
