MAYA LEGENDS – PART II

The Sun Temple

by „Die Basis“

The search continues...

Story:

In Maya Legends, Lara is searching for an ancient book of the Mayas in which all cures for the worst diseases of mankind can be found. It is said to be hidden in a temple in the valley of the sun temple. In part II Lara reaches the valley of the sun temple to finally get hold of the book.

Installation instructions:

- 1) Extract all the files to a temp folder.
- 2) Convert the audio files into wav files and then to the trle audio folder.
- 3) Copy the tr4 files and the uklogo.pak file to the trle data folder.
- 4) Copy the two script files to trle folder root.
- 5) Copy the tomb.exe file to the trle folder root..
- 6) Enjoy the Game!

Notes:

1)

There are three secrets in level „Finding the valley“. (3 golden skulls)

There are three secrets in level „The Sun Temple“. (3 golden skulls)

There are two secrets in level „Inside the Temple“. (2 golden skulls)

2) Please use the attached tomb4.exe to avoid crashes while looking around.

3) The white animal which attacks you is neither a tiger nor a wolf nor a lion. It is a lynx and this animal really lives in areas of the Mayans. ;-)

Credits:

Special thanks for objects and animations go to:

Po Yu for the beautiful „Lara Pacific Outfit“

Uranos1 for the „Save and Load“ books.

GGCTUK for the bat swarm.

Michiel for the underwater switch and the monkey

Baddy for the two baddies (army men) and the small dinos

juttae for the book object and the sun puzzle

Golden Dawn for the lynx

Bojrkraider for the piranhas

Underwater Raider for the liana, the Peru Horizon and the Jeep

TR Legend Objects by Trangel

Several objects and new sprites by teme9

Demon Lion by Horus-Goddess

....and all others I have forgotten.

Many thanks to my testers who helped me a lot and gave me useful hints, discovered errors and suggested improvements:

Zickenalarm, Eva, Raymond and Markus
