Einleitung

Foreword

*Thanks that you downloaded my first christmas
level.*

*Please read unconditionally the third chapter so that
there are no problems. ;-)*

*I surely would be glad for an review if you had
played
the level.*

*And now; Much fun by rescuing the "christmas
star".*

Install:

*Simply unpack and click
"tomb 4" and the fun
starts.*

*Please take this setup
options:*

*-1024x 768 16bit
„Widescreen“ for 19:6
Monitors
-no stopping with
„Volumetric FX“*

*Known bug: In some cases it might happen that loading a savegame from
the title screen is not possible. If this is the case start the game in "Croft
manor" and load your savegame from there.*

Story

Laras dream was for her to get into the cave and look if everything is ok.

*Sadly she fell from the carrige and landed in an little village. To continue she needs a snow mobile which is owned by an crazy old man.
"Laras biggest fan".*

After she could get the snow mobile she quick was able to find the cave from her dreams. And everything what she saw became true.

Now it's her turn to take the star back and bring it to his real place....

Tipps & Tricks

There are three new moves.

Two of them are known from ,Nerkopolis', the third from ,Tomb Raider- Chronicles'.

I advise to train them. You can do it in the main-menu

under ,Laras Home'.

Although I explain the moves here:

(Taken from Nerkopolis readme)

Lara has two new small moves. If you want, you can study them at the beginning at the harbour.

1. Backward Jump hanging at an edge: When Lara is hanging at an edge you can now perform a backward jump.

Just press "Arrow key Down", while hanging at an edge.

- When you press the key just a bit, Lara will perform a "Backward Jump".
- When you keep pressing the key, Lara will perform a "Backward Flip".

Lara is hanging at an edge, press "Arrow key Down" just a bit (Picture1).

If you let go the "Arrow key Down", she will perform a "Backward Jump" (Picture2).

If you keep pressing, she will perform a "Backward Flip".

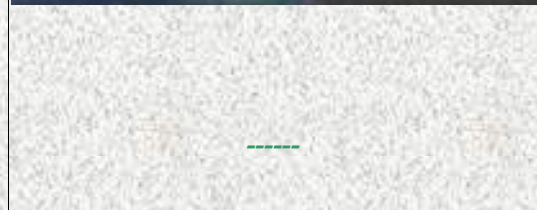

2. Hich jump while hanging at an edge: When Lara is hanging at an edge she can now perform a normal jump to get higher.

It helps her to reach higher platforms, she normally wouldn't reach. (Like in Legend).

If you press "Jump", she will jump upwards

3.Rope for balance:

*Go close to an rope and press the action button(normaly the ctrl button).
After press the foreward button to move.*

If you loose balance press the opposite arrow key .

Items & Co:

**A camera to take photos from the landscape.Lara haves
it at the start.**

**A flashlight which Lara finds;helps by lighting dark
corners..**

A slingshot; to destroy the environment.

Credit

All levels,cutscenes and animations are mine:

-Nerkan (known as ,Lara Croft')

Surely this level wouldn't be good without the help of
this persons:

-Spongebob (Mario): Had made the shovel animations and
send a lot of good music to me.

-Uranos: Allowed me the use of his flashlight and his slingshot.
and was a good help with the "obelisk" quest.
