Preface

Please be aware of my bad english ☹

I am glad that you have download my second level.

Please read this text carefully, so that you don't have any trouble with my level.

Technically

Start building:	Middle of January 2009
Duration:	ca. 3 Month
Level:	1
Total Rooms:	about 90
Playtime (round about):	ca. 1-2 h.
Secrets:	4
Level 1:	The Eastermansion

Story

It is Easter. To Easter people searches, as everybody knows, Easter eggs. So also this year, and Laras's friend has occurred there special things. In her villa she has occurred many riddles to form the search a little more difficultly. Lara himself may select even a degree of difficulty. Indeed, these are not many Easter eggs, but for it they are well hidden. Will Lara get to find all Easter eggs ...?

Installation

**Please don't use the Levelmanager, or some similary tools!!!
Sorry, this game is not compatible with MAC!**

**Please give me a [review](#) after playing!
This is the only way for me to build better levels, and then you have
some hours fun again!
[Thanks ☺](#).**

English

If you want play this game in English, you only must click at this file:
„tomb4.exe“

German

If you want play this game in german, you must delete the file english.dat,
and then you can click at the file „tomb4.exe“.

Gameplay / Levelstructure

The level shows a villa with cellar, ground floor, upper floor, and a small garden. Lara can select the degree of difficulty at the beginning. Normally is „Easy “. In the start room there is a „Gameplay “switch, here the degree of difficulty can be changed arbitrarily at its own discretion any time.

Weapons

Lara starts at the beginning without weapons.

The sixshooter

He must be found anyway to finish the game. Simply look in every room. Mostly there is in every space something to discover.

Secret Areas

A Tomb Raider Level is a Tomb Raider Level till then it has Secret areas.
Also in my Level you will find a few of secret areas, if you had you eyes open.
In every Secret Area you will find a golden Easter Egg.
In 2 of these secret areas there is, in addition, some letters to discover.

Secrets Hint:

In every Easter Level you can find some syllables. (in my Level you can find two of them, in illyaine's Level you can find one of them.)

Note that syllables, combine it to a normal word, and put it into the password file of that page:

<http://ostern.trlevel.de/>

Then you can find some surprises.

***Are so fair, and transmit the password to nobody else, if you have it.
In the end, every player should puzzle a little bit to find it out himself.
Thanks. 😊***

All together there are 4 secrets to discover.

Known Bugs

- It can sometimes happen that different savegames can crash the game.
Here a solution:
Close game, restart completely new, load that Savegame. (eventually several times.)

OR

Copy complete game into another folder.

Load Savegame, save into another savegame slot, and that Savegame copy into original folder, and with this Savegame continue playing in original folder.

- While you load the screen is black. This is a known bug of the TRNG Engine, sorry. A solution is at this time not possible.

Thanksgiving & Credits

If this project has becoming one complete level, many people must help me.

The original Editor: CORE DESIGN © Thanks!
