

- 1) I have began to build these levels one year and six months ago when Undeworld hasn't still released. To my great astonishment I have after seen that there are some similarities such as the title of the level Helheimr or other things.
- 2) Don't use other exe otherwise the levels will crash. I have scripted the script and data files so Trwest and the Fexinspect don't work.
- 3) Some animating appear and disappear , but this isn't important for the game.
- 4) Lara escapes from narrow such as TR5 with ALT and Arrow. She gets out the small boat with SHIFT and Arrows. She can to climb on pushable but it can happen that after the save it doesn't work, it is sufficient move it and will work again.
- 5) Legend; **Brisingamen**: Jewel belonging to Freyja, Goddess of fertility and the justice. **Advanarautr**: The fatal ring given Andvare (the wary spirit). The History of Advanarautr and his course inspired Wagner in Der Ring des Nibelungen, and Tolkien in The Lord of rings. **Gramr**: Odino's sword. **Skidbladnir**: Odino's Flying ship.
