

## Create a Classic 2021 - Madhouse Revisited by "Die Basis"

### Story:

Lara finds out that Sophia Leigh is still alive and has another secret hideout on the North Coast of France. Of course, there is also a zoo nearby of which Sophia is the secret director. In order to get into Sophia's hideout and defeat her once and for all, Lara needs again the "Hand of Rathmore". It is hidden in a vault somewhere in the zoo. So Lara has no other choice than to reach the North Coast of France with her rubber boat, but hopefully this time without being shipwrecked.

### Installation instructions:

Just unzip the folder and start the "tomb4.exe".

### Notes:

1)

#### Level 1 "The Zoo"

There are three secrets (3 red gems)

#### Level 2 "Sophia's Hideout"

There are three secrets (3 red gems)

#### 2) Vehicles: Boat

If you try to ride the boat on land or onto rocks, it will explode and Lara will die. So pay a little bit of attention.

### Boat Control:

Ctrl Key	Enter the boat and steer
Alt Key	Ride backwards
Arrow Keys (together with Ctrl Key)	Steer
Ctrl Key and Arrow Keys right or left together	Leave the boat

3) You can't defeat Sophia Leigh by shooting at her. In the final battle, there are other ways of killing her. (You can't even aim at her, so just run away from her if you see her before the final battle.)

4) By pressing Alt + Arrow Forward you can make a crawlspace jump like in TR5.

5) You can press F7 and F8 anytime in the game to switch between pixelated and non-pixelated textures.

### **Known Bugs:**

- Saving the Game while pushing the crate in the aviary may end in a crash when you try to reload it.
- Sometimes you can fall through the “Bridge parts” in the aviary or “Dinosaur House” especially when jumping on them.
- Don’t save while you are about to insert a key to open a door. After reloading you may get stuck because the door isn’t open afterwards.
