## The Cursed Memories

**STORY:** In "Shattered Memories", after destroying the treasure found in "Folklorist Diary - The Forgotten Treasure", could we consider the end of illusions for Lara Croft? Well, of course the answer is "no".

After the events of the "Forgotten Treasure" and "Shattered Memories", Lara continues to decipher the riddles of the "Folklorist Diary" and discovers that the destroyed treasure was only one of "Mystical Relics" indicated in the Diary. In "Cursed Memories", Lara will search for an Egyptian Amulet mentioned in the diary, which cannot fall into the wrong hands. Mercenaries also seek such amulet, but the main threats in this adventure continue to be illusions and evil forces that will make Lara doubt what the real world really is. Will Lara be able to find this second treasure? The demo contains the first level of this TR3 adventure.

❖ TO PLAY THIS CUSTOM LEVEL: Run Tomb3.exe.

❖ Language: This demo has different language options, so if you want to try in “Portuguese” or “Spanish” you only need to go to the folder “Languages” and follow the steps showed in the file “How to Install”.

❖ **IMPORTANT WARNINGS:**

- In some parts of the level the objects (mainly doors) or enemies may “flick” or can disappear when Lara is away from him. This happens because TR3 “render” has some issues, so it’s a normal bug that will not affect the gameplay.
- If you open the game folder and don’t find a TR3.exe file, your antivirus may have sent it to quarantine. Remove it from there and put it as an exception as it is a false positive.
- If the TR3.exe doesn’t open or has some error, delete the config.txt file from the folder and try setup the level again.
- If you find some issue, crash or bug during the gameplay, send me a message in my Instagram (@folkloristdiary) or Youtube Channel (youtube.com/user/leoc1995). All feedback will be important to improve and fix the final version 😊.
